

Masonry Paint Colour Guide

Sandtex® Masonry paints are available in the following colours and finishes:

- Available in 2.5 litre Ultra Smooth Microseal™ formulation.
- Available in 5 litre packs of both Fine Textured and Ultra Smooth Microseal™ formulations.
- Available in 10 litre packs of both Fine Textured and Ultra Smooth Microseal™ formulations.
- Available in 5 litre and 10 litre packs of One Coat Ultra Smooth.

Try our 150ml **Ultra Smooth tester pots** available for all colours shown as well as for Pure Brilliant White.

For technical reasons connected with colour reproduction and the limitations of the media, the colours shown will not exactly match the paint colours and do not represent a particular finish.

Masonry Paint Colour Guide

CHOOSING AND COMBINING COLOURS

The colour you choose to paint your home is a personal decision but we've put together a list of points to consider and some colour combinations to get you started.

Points to consider:

- Look around for inspiration - see what other people have done. Do you want to blend into your surroundings or make a bold statement? What looks good in your area?
- Check with your local council that there aren't any restrictions in your neighbourhood – particularly if you live in a conservation area.
- If you can't make up your mind, buy a few Sandtex® Tester Pots to try. Paint some colour on a piece of card, hold it up to your walls and you can see how it looks at different places round the house.

When you are choosing colours, try to think of a complete colour scheme so that the exterior walls and the wood/metal complement each other. Here are some suggestions to help you get started.

Masonry Walls
**Sandtex®
Ultra Smooth
Microseal™ Paint**

Front door & garage door
**Sandtex®
Front Door
